Reserve a Spot of Light

APPLICATIONS CLOSE THIS OCTOBER.
LIMITED AVAILABILITY.
DELIVERY BEGINS Q4 2025.

[APPLY FOR SUNSHINE](#)

This promotional banner features a dark, high-angle aerial photograph of a city at night, showing illuminated buildings and streets. The text is positioned in the upper left quadrant, and a prominent orange button with white text is located in the lower left.

Solar Energy at Night

DURING PEAK DEMAND. ANYWHERE.
NO INFRASTRUCTURE NEEDED.

[INQUIRE NOW](#)

A wide-angle photograph of a vast solar farm at night. The rows of solar panels stretch into the distance, and a few lights are visible on the horizon under a dark sky. A white downward-pointing chevron is centered at the bottom of the image.

Reflect Orbital

Selling Sunlight Using Mirrors in Space.

A close-up photograph of a globe of the Earth. The globe is mounted on a stand and has numerous small, dark, rectangular components attached to its surface, resembling a satellite or a data visualization tool. The background is a bright, out-of-focus indoor setting.

Elon Musk  
@elonmusk

The Blindsight device from Neuralink will enable even those who have lost both eyes and their optic nerve to see.

Provided the visual cortex is intact, it will even enable those who have been blind from birth to see for the first time.

To set expectations correctly, the vision will be at first be low resolution, like Atari graphics, but eventually it has the potential be better than natural vision and enable you to see in infrared, ultraviolet or even radar wavelengths, like Geordi La Forge.

Much appreciated, [@US_FDA!](#)
